

# The tale of Boumort

Come live a few storytale days!

DURATION: 6 NIGHTS  
SEASON: April, May, June & July

## Introduction

We will follow in the footsteps of Coloma and JanRoi and live own adventure through valleys and forests. A wise black vulture, a mad capercaillie, a clever fox and a white deer will guide us during these days to end up finding out Boumort's secret. The map will lead us down paths, trails and villages full of stories. We will relive the life that used to be there and will discover magical places in the middle of the wild nature.

Experience inspired in the tail "La Coloma, el JanRoi i el misteri del Boumort" by Vanesa Freixa.
